What does a badger look like?

A main white stripe called a BLAZE to show up in the dark

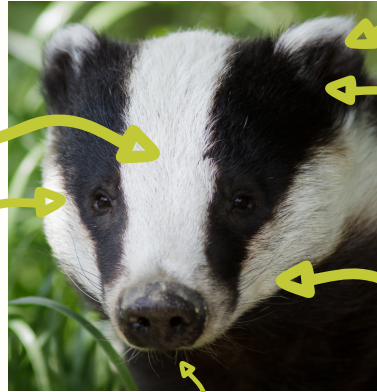

Small eyes = poor vision

Black & white striped face

White ear tips

Smallish ears = poor hearing

Strong jaw for biting and sharp teeth for grabbing supper

A body covered in long coarse hairs and short downy fur for warmth

Long nose = brilliant sense of smell

700 times better than yours!

Short bushy tail

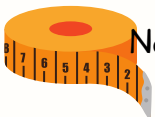

Short muscular front legs!

Ideal for digging!

5 non-retractable claws on its front paws

Badgers can gallop at 25-35 kmh

Nose to tail = up to 1 metre long

Weight
7-12 KG
